

## Please Have Me

intro:

**G D G**

**G D G**  
I saw your pretty face

**C D**  
in a magazine.

**G D G**  
As I looked my eyes popped out;

**C Am D7**  
you were a beauty queen.

**G**  
Your hair - it shone  
**C**  
and your eyes did too;

**A**  
oh my darling

**D**  
I'm in love with you.

**G**  
I love you,

**D G D G D G**  
Please have me.

**G D G**  
As I lay dreaming

**C D**  
of what could be,

**G D G**  
I started wondering

**C Am D7**  
what life had planned for me.

**G D G**  
I began thinking

**C D**  
of the things I could do,

**G**                    **D**                    **G**  
but most of all, my love,  
**C**                    **D7**                    **G**  
I dream't of life with you.

(bridge)

**G**                    **D**  
I pinned your picture  
**C**                    **D**  
up on my bedroom wall.  
**G**                    **D**                    **C**  
Every morning I wake up  
**D**  
to your smile.  
**G**  
I cannot help but wish  
**C**  
it will one day be true  
**G**  
that maybe we will meet  
**D**                    **G**                    **D**                    **G**  
and i will live with you.

**G**                    **D**                    **G**  
So many pretty ladies;  
**C**                    **D**  
so many dreams;  
**G**                    **D**                    **G**  
so many fine young men  
**C**                    **Am**                    **D7**  
needing a girl to please.  
**G**  
There may be others  
**C**  
who want you too  
**A**  
but I saw you first  
**D**  
and I do love you.

**G**

I love you,

**D G D G D G**

Please have me.
